Vegetable Plants

Strawberry Plants

ARLIE WOODARD & SON
DONGOLA, ILLINOIS

TO OUR CUSTOMERS AND FRIENDS

Eighteen years ago, we began the growing of vegetable plants and selling them by mail. Because of the labor shortage in 1942, and due to the fact that our two sons went into the Armed Forces, we were forced to discontinue part of our plant growing. Although, we were able to continue our sweet potato plant growing.

THIS SPRING WE WILL BE ABLE TO FURNISH A FULL LINE OF HIGH QUALITY VEGETABLE PLANTS. We use the best seed that can be had. OUR MOTTO IS PROMPT SERVICE. Our method of wrapping and packing plants will assure arrival in good condition. We guarantee all plants to arrive in good condition, or we will replace any plants that are not satisfactory when received. We will not be responsible for crop—due to weather conditions or improper handling of plants after received.

Your order, large or small, will be given careful attention.

If neighbors and friends will order together, you get your plants much cheaper than several small orders. BE SURE TO ORDER IN QUANTITIES AS LISTED IN CIRCULAR, AND DO NOT EXPECT YOUR PLANTS BEFORE DATES SPECIFIED FOR BEGINNING OF SHIPMENT OF EACH KIND.

*SEND CHECK OR MONEY ORDER—NO C.O.D. ORDERS
ACCEPTED*

SWEET POTATO PLANTS

VARIETIES—*NANCY HALL*, Yam type, good size, quick growth of vines, heavy producer.

PORTO RICO, sweet, orange flesh, very moist.

YELLOW JERSEY, dry type, heavy growth of vines.

PRIESTLY—**HEAVY PRODUCER**. Skin light yellow. Dry & Mealy.

RED BERMUDA—Very Early. Grows well in most any soil.

SOUTHERN QUEEN—White. Good keeper. Rather dry.

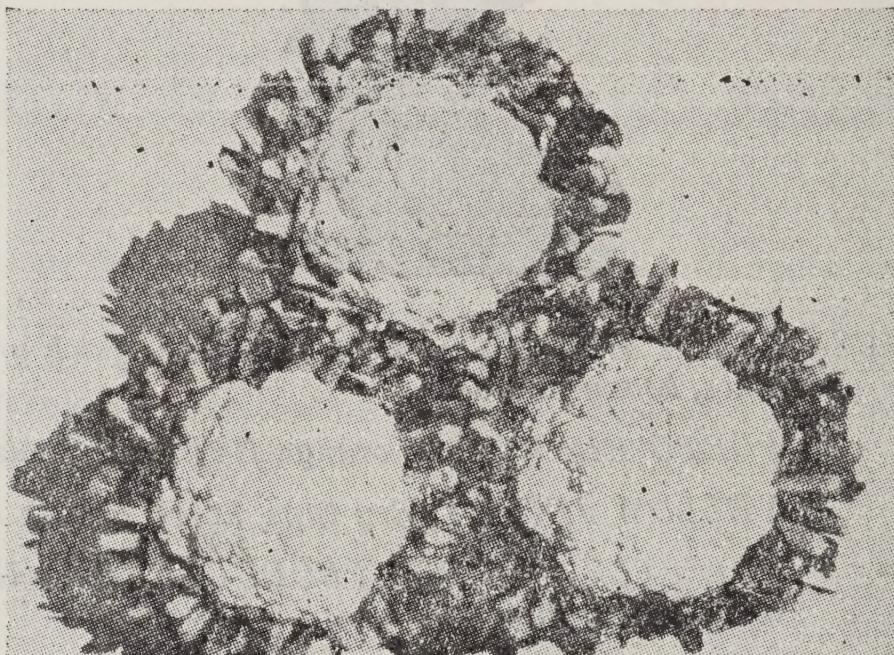

Our plants are grown from high quality seed. Our seed is treated at bedding time with corrosive sublimate, which insures disease-free plants. When our plants are pulled from plant beds, they are taken immediately into packing shed to be sorted and counted. *They are never allowed to wilt before shipping.* Roots are wrapped in damp moss and paper. Parcel Post orders are shipped in strong well-ventilated paper cartons. Express orders in ventilated wooden crates. We ship sweet potato plants into all the Central, Northern and Eastern States, and they arrive in excellent condition.

Be sure to state variety and shipping date. Plants will be ready for shipment around April 25th.

STRAWBERRY PLANTS

Ready Soon As We Can Dig Them In March

DELICIOUS BLAKEMORE

Above picture was taken on EASTER SUNDAY, April 21st, 1946

In my many years experience with strawberries, I have never seen finer berries than we had last Spring. Our plants were set from above patch for this Spring plants. **BETTER PLANTS CANNOT BE HAD THAN WE GROW.** Give us an order, and let us prove above statement. All plants are stout, thrifty, and with good roots. The entire bed is dug—
